

Firefox Cache Clean instructies

Stap 1: Menu opties

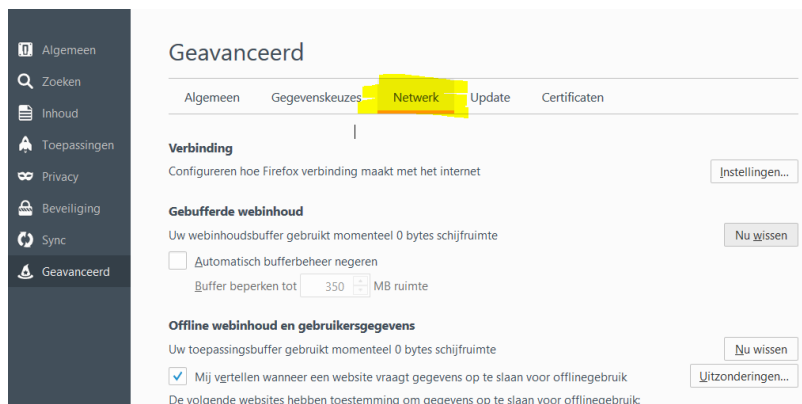

Stap 2: Selecteer opties

Stap 3: Selecteer Geavanceerd

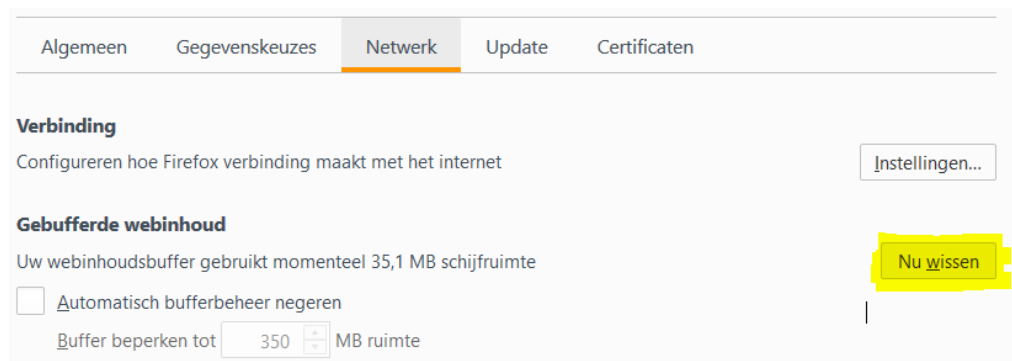

Stap 4: Selecteer Network tab

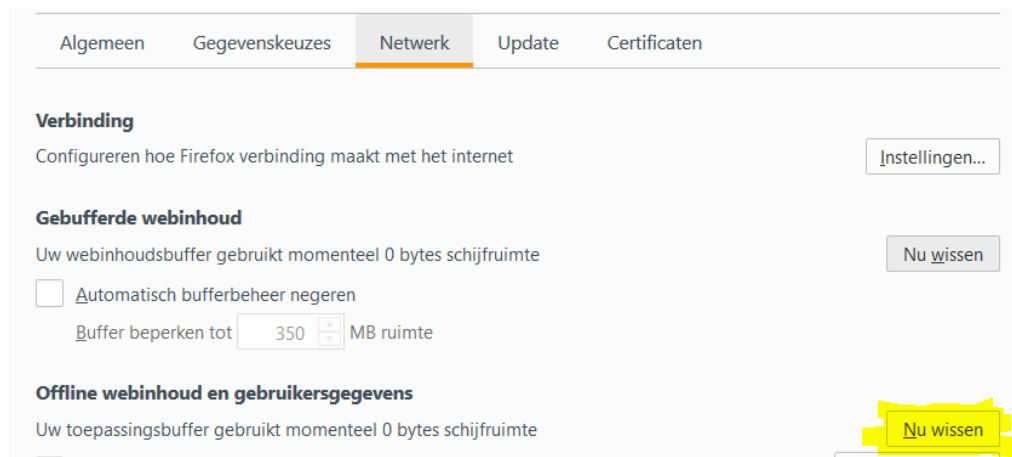

The screenshot shows the Firefox 'Geavanceerd' (Advanced) settings page. The 'Network' tab is highlighted in yellow. The page is divided into sections: 'Verbinding' (Connection), 'Gebufferde webinhoud' (Cached web content), and 'Offline webinhoud en gebruikersgegevens' (Offline web content and user data). The 'Gebufferde webinhoud' section shows 'Uw webinhoudsbuffer gebruikt momenteel 0 bytes schijfruimte' and a 'Nu wissen' button. The 'Offline webinhoud en gebruikersgegevens' section shows 'Uw toepassingsbuffer gebruikt momenteel 0 bytes schijfruimte' and a 'Nu wissen' button. A 'Wijzigingen...' button is also visible.

Stap 5: Klik op Nu Wissen gebufferde webinhoud

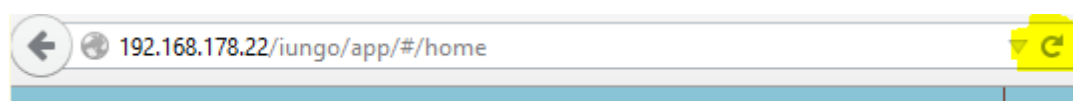

The screenshot shows the 'Network' tab selected in the Firefox settings. The 'Gebufferde webinhoud' section is highlighted, showing 'Uw webinhoudsbuffer gebruikt momenteel 35,1 MB schijfruimte'. The 'Nu wissen' button is highlighted in yellow.

Stap 6: klik op offline webinhoud en gebruikersgegevens wissen

The screenshot shows the 'Network' tab selected in the Firefox settings. The 'Offline webinhoud en gebruikersgegevens' section is highlighted, showing 'Uw toepassingsbuffer gebruikt momenteel 0 bytes schijfruimte'. The 'Nu wissen' button is highlighted in yellow.

Nu kunt u de iungo pagina verversen en zal de meest recente versie geladen worden.

The screenshot shows a browser address bar with the URL '192.168.178.22/iungo/app/#/home'. A yellow highlight is placed over the refresh button (circular arrow icon) on the right side of the address bar.
